## Team 9 LWG Water Quantity Project Proposal Worksheet

Name of Project: \_\_\_\_\_

Point of Project contact name: \_\_\_\_\_

Email address: \_\_\_\_\_

Phone Number(s): \_\_\_\_\_

Mailing Address: \_\_\_\_\_

### Supporting Documentation:

1. Please provide a hard copy map of the project and label all ownership (state, private, federal) within the project area. If you need assistance creating a map, contact the NRCS Field Office.
2. Please also provide your Water Management plan or responsibilities (a copy of bylaws or similar document).
3. Please provide ditch rider's reports or other documentation supporting stated shrink rates within the system.

### Provide a Brief Description of the Project:

List all partners involved in the project:

What NRCS Resource Concerns will the project address (See handout)?

If applying for ditch to pipeline conversion or irrigation conveyance lining, please provide the estimated shrink (water lost to evaporation and infiltration) in the current conveyance system. Please also describe how this shrink was estimated:

Who will provide the engineering design and oversight for this project (if TSP or Other selected, please indicate who you intend to work with)?

NRCS

TSP \_\_\_\_\_

Other \_\_\_\_\_

Please describe the current status of the engineering process (Survey, Design, etc. complete or in process).

Will the project cross or directly involve any Public Lands?      Yes      No

If yes, please list the lands that are involved:

Have the appropriate Rights of Way or other necessary permissions been issued for this project?

Yes      No

Comments:

Please provide an estimated budget of the project, including partner and participant contributions.

**Total Estimated Project Cost:** \_\_\_\_\_

Project Contributions:

In-kind Contributions (labor, equipment, materials, etc.)

Financial Contributions:

Are all project applicants eligible for Farm Bill Programs (Contact NRCS/FSA for details if needed) or willing to become eligible for FY2022?

Yes    No

Comments:
